

Annex 9 to the Rector's Ordinance No. 35/19 of 12 June 2019

# **COURSE SPECIFICATION**

| Course code                | M#1-S1-ME-108            |
|----------------------------|--------------------------|
| Course title in Polish     | Technologie Informacyjne |
| Course title in English    | Information Technology   |
| Valid from (academic year) | 2019/2020                |

# **GENERAL INFORMATION**

| Programme of study     | MECHANICAL ENGINEERING  |
|------------------------|---|
| Level of qualification | first-cycle   |
| Type of education      | academic  |
| Mode of study          | full-time   |
| Specialism             | all   |
| Department responsible | Department of Applied Computer Science and Weap-<br>ons Engineering |
| Course leader          | Prof. dr. hab. inż. Zbigniew Koruba                                 |
| Approved by            |   |

# **COURSE OVERVIEW**

| Course type                   | basic      |
|-------------------------------|------------|
| Course status                 | compulsory |
| Language of instruction       | English    |
| Semester of delivery          | semester 2 |
| Pre-requisites                | None       |
| Examination required (YES/NO) | NO         |
| ECTS value                    | 2          |

| Mode of instruction          | lecture | class | laboratory | project | seminar |  |
|------------------------------|---------|-------|------------|---------|---------|--|
| No. of hours<br>per semester |         |       | 30         |         |         |  |

## LEARNING OUTCOMES

| Category<br>of outcome | Out-<br>come<br>code | Course learning outcomes   | Corresponding<br>programme<br>outcome code |
|------------------------|----------------------|--|--|
| Skills                 | U01                  | They will be able to format text, create simple drawings<br>in a text editor. They will be capable of creating simple<br>tables and formulas (equations) in a text editor. They will<br>be able to select appropriate tools and functions to solve<br>particular tasks in a spreadsheet. | MiBM_U01<br>MiBM_U04<br>MiBM_U05           |
|                        | U02                  | They will be able to interpret the results obtained in spreadsheets and math packages.   | MiBM_U03                                   |
| Competence             | K01                  | They will be able to work in a team.   | MiBM_K04                                   |

# **COURSE CONTENT**

| Type of<br>instruction* | Topics covered  |
|-------------------------|---|
|                         | 1. Text formatting, artistic text and drawing in a text editor of a selected office suite |
|                         | 2. Inserting tables and formulas (equations) in the text editor of the selected office    |
|                         | suite   |
|                         | 3. Adding automatic table of contents to a document                                       |
|                         | 4. Creating a presentation showing research results                                       |
|                         | 5. Principles of creating graphs and arithmetic expressions in the MathCAD math           |
|                         | package.  |
| laboratory              | 6. Principles of solving equations and inequalities in MathCAD mathematical packag-       |
|                         | es.   |
|                         | 7. Optimization and operations on vectors and matrices in MathCAD.                        |
|                         | 8. Solving equations and systems of differential equations in MathCAD.                    |
|                         | 9. Symbolic expressions and programming elements in MathCAD.                              |
|                         | 10. Addressing and formulas in a spreadsheet of the selected office suite.                |
|                         | 11. Data filtering and indirect sums in a spreadsheet.                                    |
|                         | 12. Creating graphs in a spreadsheet.   |

# **ASSESSMENT METHODS**

| Outcome | Methods of assessment (Mark with an X where applicable) |                     |      |         |        |       |  |
|---------|---|---------------------|------|---------|--------|-------|--|
| code    | Oral examination  | Written examination | Test | Project | Report | Other |  |
| U01     |   |                     | Х    |         |        |       |  |
| U02     |   |                     | Х    |         |        |       |  |
| K01     |   |                     |      |         |        | Х     |  |

### ASSESSMENT TYPE AND CRITERIA

| Mode of<br>instruction* | Assessment type               | Assessment criteria  |  |  |  |  |
|-------------------------|-------------------------------|--|--|--|--|--|
| laboratory              | non-examination<br>assessment | Regular class attendance. The pass mark is a minimum of 50% for each of the three computer-based in-class tests. |  |  |  |  |

\*) Please delete rows in the table above that are not applicable.

### **OVERALL STUDENT WORKLOAD**

| ECTS weighting |  |                  |     |    |   |      |      |
|----------------|--|------------------|-----|----|---|------|------|
|                | Activity type  | Student workload |     |    |   | Unit |      |
|                |  | L C Lab P        |     |    | S |      |      |
| 1.             | Scheduled contact hours  |                  |     | 30 |   |      | n    |
| 2.             | Other contact hours (office hours, examination)                          |                  |     | 2  |   |      | h    |
| 3.             | Total number of contact hours  |                  |     | 32 |   |      | h    |
| 4.             | Number of ECTS credits for contact hours                                 | 1.3              |     |    |   | ECTS |      |
| 5.             | Number of independent study hours  | 18               |     | h  |   |      |      |
| 6.             | 6. Number of ECTS credits for independent study hours                    |                  | 0.7 |    |   |      |      |
| 7.             | Number of practical hours  |                  |     | 32 |   |      | h    |
| 8.             | 8. Number of ECTS credits for practical hours                            |                  | 1.3 |    |   |      | ECTS |
| 9.             | Total study time   |                  |     | 50 |   |      | h    |
| 10.            | ECTS credits for the course    1 ECTS credit = 25-30 hours of study time |                  | 2.0 |    |   |      | ECTS |
